4+ years leading product strategy and engineering across e-commerce and fintech consumer platforms, translating customer insights into products that drive acquisition, retention, and revenue growth.

EDUCATION

IIM Lucknow, MBA - Major: IT, Strategy & Operations

2023 - 2025

VIT Vellore, B. Tech – Electronics & Communications Engineering

2016 - 2020

PROFESSIONAL EXPERIENCE

MakeMyTrip, Gurgaon | Associate Product Manager

Apr'25 - Present

Led product strategy across - acquisition, platform optimisation, and ancillary monetisation for GCC Flights

Customer Experience Strategy:

- Redesigned round trip listing quality as a conversion gap; developed a price and duration-weighted **Data Science clustering model** to surface differentiated options; **A/B validated and delivered +7% step-wise conversion uplift.**
- Defined personalisation at scale as an unresolved CX gap; partnered with Data Engineering to build a unified real time behavioural snapshot powering transaction linked nudges at checkout; **drove 15% uplift in ancillary attach rate.**
- Architected a **RAG-based GenAI agent from 0-to-1** to resolve pre-sales query friction; defined retrieval architecture, knowledge boundaries, and fallback logic; **achieved 60%+ automated resolution, projecting Rs. 7L cost reduction.**

Product Strategy & Commercial Roadmap:

- Mitigated LTV risk in Meta acquisition channels (Skyscanner, Wego) through retention interventions across post-booking, onboarding, and CRM touchpoints; **increased direct conversion from 10% to 16% and delivered Rs. 1.3 Cr in annual savings.**
- Prioritised embedded finance as the solution to per-market legal overhead blocking ancillary scaling; structured build-vs-partner analysis, modelled revenue scenarios, and led integration across GCC markets; **reduced rollout TTM from 8 to 2 weeks, unlocking Rs. 2.4 Cr revenue opportunity.**
- Optimised MMT's meta-search presence by building a signal-based participation framework using conversion rate thresholds to suppress underperforming sectors; **reduced 10M+ daily requests, delivering Rs. 18.3L in infra savings.**
- Onboarded Kayak, Skyscanner as distribution partners; defined commercial framework covering CPA attribution, API contracts, pricing parity, and end-to-end customer journey from meta-search click to checkout; **drove 25K+ new DAUs**

MakeMyTrip | Product Intern (*Received Pre-Placement Offer*)

Apr'24 – Jun'24

- Identified pain points across the long-haul flight booking funnel through 750+ sales call analyses & 10+ stakeholder interviews
- Drove cohort & market analysis across customer segments; translated behavioural signals into strategic acquisition and retention recommendations; **presented quarterly roadmap to COO**

Amadeus, Bangalore | Software Developer Engineer

Aug'20 – Jun'23

Built full stack features across booking, post-sales, & compliance modules; delivered 20+ production releases across 10+ global teams on a consumer platform **serving 100M+ annual visits at 95% sprint accuracy**

- Delivered end-to-end Canadian regulatory compliance across two government mandates; refactored fare, tax, and traveller validation logic platform-wide across booking & profile modules; **achieved zero audit findings & 100% regulatory compliance.**
- Architected Air Canada's insurance upsell capability from 0-to-1; built backend orchestration for dynamic product eligibility, pre-payment add-ons, and payment flow integration supporting a net-new commercial strategy; **drove +7% attach rate.**
- Eliminated manual post-sales document validation by integrating a third-party travel documentation API enabling real-time eligibility checks within the post-booking flow; **reduced post-sales support calls by 40%.**

ACADEMIC PROJECT & CASE COMPETITION

Accenture Innovation Challenge | **National Finalist (Top 5 / 50K+ teams)**

- Modelled unit economics for an EV charging platform with dynamic pricing (~Rs. 30L revenue per asset, ~2-year breakeven); developed B2B GTM strategy covering pricing tiers, commercial packaging, and fuel-station partner onboarding.

Lenskart | **Academic Project**

- Translated cohort analysis and business case findings into **18 prioritised user stories** across 3 sprint releases; defined activation and retention KPIs achieving **96% sprint estimation accuracy.**

SKILLS & CERTIFICATIONS

- Product & Strategy:** Product Discovery, Roadmap & Backlog Prioritization, Experimentation (A/B Testing), GTM, Performance Marketing, Monetization Strategy, Financial Modelling, KPI Definition, Sprint & Release Planning, Agile Methodology
- Technical:** REST API Integrations, SQL, JSON (API Payloads), MongoDB, Python (Data Analysis), GenAI / RAG Architecture
- Tools:** Jira, Confluence, Microsoft Excel (Financial Modelling), Microsoft PowerPoint (Executive Decks), Figma, Mixpanel, Google Analytics, Adobe Omniture, Postman, Swagger, Scalyr, Grafana, Splunk, Kafka, Vercel, Lovable, Supabase
- Certifications:** Microsoft Certified: Azure Fundamentals, Certified SAFe 5 Practitioner
