4+ yrs of experience across engineering & product, building & scaling consumer products in e-commerce, travel & fintech

EDUCATION

IIM Lucknow, MBA 2023 - 2025
Major: IT, Strategy & Operations
VIT Vellore, B. Tech – Electronics & Communications Engineering 2016 - 2020

PROFESSIONAL EXPERIENCE

MakeMyTrip | *Associate Product Manager* Apr'25 – Present
Owned Flights & Growth LOB for MMT GCC/Global, *leading monetization and partner integration initiatives*

- Accelerated aggregator-to-direct conversion from 10% → 16%; **reduced acquisition cost → ~₹1.3 Cr annual savings**
- Architected traffic-gating layer reducing **~10M daily low-intent hits** while preserving booking conversion rates
- Optimized DS-driven predictive clustering for Round Trip flight listings → **Step-wise conversion +7%**
- Optimized existing interstitial design, **increasing premium and business fare-family share by 12%**
- Orchestrated **third-party partner onboarding (Kayak, Etihad Rail),** defining API contract schemas, attribution logic, and workflow integrations
- Modeled SQL-driven recommendation engine leveraging booking & post-sales behavioural signals → **Attach rate +15%**
- Automated lifecycle journeys across WhatsApp, email, & in-app nudges → **Improved activation by 5%**
- Built business case and launched embedded finance offerings (Trip Delay & Baggage Insurance) within booking flows → **~₹55L annual revenue impact.**

MakeMyTrip | Product Intern ***(Received PPO)*** Apr'24 – Jun'24

- Analysed **750+ sales calls** & conducted **30+ stakeholder interviews** to identify funnel friction across customer segments
- Quantified SQL-based market and cohort analysis **uncovering 5 underpenetrated segments** vs industry benchmarks
- Authored **7 PRDs**, prioritized via RICE, and converted research insights into a quarterly product roadmap

AMADEUS LABS | Software Developer Engineer Aug'20 –Jun'23
*Built UI components & supported backend systems powering Air Canada's booking platform serving **100M+ annual visits***

- Delivered **20+ production releases** across booking and post-sales modules in collaboration with **10+ global teams**, maintaining **~95% sprint estimation accuracy**
- Enhanced WCAG accessibility compliance, **reducing UI-related defects by 45%**
- Implemented ancillary revenue growth by building backend orchestration for insurance upsell and dynamic pre-payment add-ons → **Attach rate +7%**
- Refactored fare and tax computation logic to meet Canadian regulatory standards, eliminating pricing inconsistencies and ensuring full regulatory alignment across transactional systems
- Integrated Sherpa API into post-sales modules enabling real-time documentation validation → **post-sales support calls -40%**
- Developed compliance-driven passenger information enhancements across booking and profile modules, improving data completeness and reducing downstream booking validation errors

ACADEMIC PROJECT & CASE COMPETITION

Accenture Innovation Challenge | **National Finalist (Top 5 / 50K+ teams)**

- Designed subscription-based EV charging platform with dynamic pricing to enable fuel-station transition to EV mobility
- Modeled unit economics projecting **~₹10L annual revenue/asset with ~1-year breakeven** to validate capital viability

Lenskart | Agile Product Development

- Translated **5 core epics into 18 prioritized user stories**, executed across 3 structured sprint releases
- Defined activation & retention KPIs while achieving **~96% sprint est. accuracy** to support predictable release velocity

SKILLS & CERTIFICATIONS

- **Product:** Product Discovery, Roadmap & Backlog Prioritization, Experimentation (A/B Testing), Activation & Retention, Go To Market, Monetization Strategy, KPI Definition, Sprint & Release Planning,
- **Technical:** REST API Integrations, API Contract Alignment, SQL (Analytics), JSON (API Payloads), MongoDB (NoSQL), Python (Data Analysis), Workflow Orchestration, Data Validation Logic
- **Tools**: Jira, Confluence, Figma, Mixpanel, Google Analytics, Adobe Omniture, Postman, Swagger, Scalyr
- **Certifications:** Microsoft Certified: Azure Fundamentals, Certified SAFe 5 Practitioner
